Show Review – BIG5 2012 in Jeddah

GPE was proud to welcome a large number of visitors from all the Middle East and Africa to their stand in the BIG 5 show recently held in Jeddah.

Euromix Dynamik now with higher capacity

The successful fully mobile batching plants EUROMIX Dynamik has been redesigned. The plant is now equipped with a bigger twin shaft mixer 1,75cbm per batch which is increasing the capacity to app. 80cbm/hr. Furthermore the plant has now galvanized aggregate bins and also bigger platforms for an easy maintenance. All motors are SEW type. The plant is fully mobile and can be moved with one trailer only.

EUROMIX HYBRID – High output and still mobile

GPE has launched the new EUROMIX Hybrid plant. A semimobile plant with an output of 130cbm/hr. The plant is equipped with a 3cbm output twin shaft mixer and a large aggregate stock of 30cbm per bin what is normally only available for stationary plants. The plant is designed for quick and easy installations.

Bates Concrete with mixers in GPE design

Bates Concrete in Manchester has designed its new transit mixer with GPE plants and GPE logo. Bates Concrete is running a GPE dry plant in Manchester. We say thanks to the owner Mark Bates for this great advertisement.

GPE received six new orders for GPE 120 plants

In February and March GPE received orders for six plants type GPE 120. Five plants are going to Saudi Arabia where one plant was ordered from an Emirati company. We say thanks to all our clients.

Thank you for your attention, we are looking forward to hearing from you.

Best regards
